OUR PURPOSE

Enrich lives through
better hearing.

OUR MISSION

Serve better
than anyone.

Individuals caring for individuals, together.

Since 1953 we have been improving our patients' quality of life by offering an unmatched hearing healthcare experience. Our focus is on offering our patients comprehensive and compassionate hearing healthcare services including hearing assessments, hearing aid manufacture and maintenance, rehabilitation, education, and counseling. We guarantee our products and services to be of the best quality and highest value.

Professionalism

Every Livingston location is staffed by highly trained and licensed professionals who meet or exceed all state requirements. All clinical services are performed by professional staff who are dedicated to helping every patient achieve the highest possible improvement in hearing and understanding.

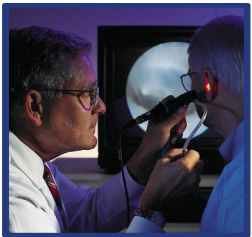

Products & Services

Comprehensive Audiometric Evaluation

In a stationary sound booth, the patient's hearing acuity in each sound frequency band is tested, evaluated, and plotted using state-of-the-art audiometric testing equipment.

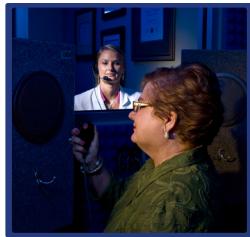

Video Otoscopy

Video Otoscopy allows our staff to view and record a live color image of the patient's ear canal and ear drum. It is used to detect developing conditions that could require medical attention. One of the more common hearing difficulties is caused by cerumen (ear wax) accumulation. The video otoscope gives a clear picture of wax and its possible effect on the patient's hearing.

Real Ear Measurement

Real Ear Measurement allows the clinician to measure & record the performance of the patient's hearing aids while they are actually being worn. This computer analysis helps us to verify that the patient's hearing aid prescription is precisely matched to their individual requirements.

Sound Field Test

Sound Field Testing is a special type of evaluation which measures the patient's hearing acuity in real world situations with and without hearing aids. Using specially calibrated equipment we are able to duplicate many types of listening situations, such as a noisy restaurant or a room where there are several conversations going on at the same time.

Live Speech Mapping

Live Speech Mapping is a new technology for fitting hearing aids that produces higher satisfaction. As the patient listens to live speech from a spouse or someone they are familiar with, an advanced computer measures and records the hearing aids' performance at the patient's eardrum. This system allows the clinician to precisely set and adjust the prescription for the best hearing possible.

Four Styles of Hearing Aids

Find out how we can help you.

More than 30 million Americans of all ages are affected by hearing loss – which can range from mild to profound.

If you suspect you have hearing loss, take this simple test.

- ☐ Yes ☐ No When watching television with others, do you need to set the volume higher than they would to hear what is being said?
- ☐ Yes ☐ No Do you often need to ask people to repeat what they have said?
- ☐ Yes ☐ No Do you often feel that people are 'mumbling' or speaking unclearly?
- ☐ Yes ☐ No Do you often have trouble understanding a conversation when there is background noise or other people are talking at the same time?
- ☐ Yes ☐ No Have your family members / colleagues / friends asked you if you have a hearing problem?
- ☐ Yes ☐ No Do you avoid parties and social events because there is too much noise or you can't hear what people are saying?
- ☐ Yes ☐ No During conversations in a car, a restaurant, or another noisy place, do you often misunderstand what is being said?
- ☐ Yes ☐ No Do you need to sit close to the speakers at meetings, religious services, or at the dinner table in order to understand?
- ☐ Yes ☐ No Do you often experience problems hearing and understanding what other people are saying to you when you do not have eye contact?
- ☐ Yes ☐ No If you answered "yes" to at least two of these questions, you may have a hearing loss and need to have your hearing tested.

Call the location nearest you for an appointment today.

OUR LOW PRICE GUARANTEE:

If you find a lower advertised price on an identical hearing aid or product at any local retail competitor, we will beat their price by 10% when you buy from us. Just bring us the competitor's current ad. Competitor's remanufactured, discontinued, and used hearing aids are excluded from this offer.

Livingston Audiologists are certified in-network VA providers and you may be eligible for hearing aids and hearing aid services at no cost to you! See store for details.
