

# Warranty Renewal Program

- Never attempt to repair your hearing instruments. Do-it-yourself repairs usually cause more damage than good. Any problems should be reported immediately to your hearing professional.
- Never wear your hearing instruments in the shower or while swimming.
- If your hearing instruments do get wet, never try any "quick drying" methods such as microwaves, hair dryers or ovens. Consult your hearing professional if your instruments are inoperable due to moisture.
- Always place your hearing instruments in a safe place out of the reach of pets or small children.
- If your hearing instruments sound distorted or are unclear they may be in need of repair and you should consult your hearing professional immediately.
- Visit your hearing professional at least twice a year for follow up care and routine service.
- Hearing loss is dynamic and we recommend that you have your hearing tested at least once a year to ensure you are receiving maximum benefit from your hearing instruments.

## OUR LOW PRICE GUARANTEE

If you find a lower advertised price on an identical hearing aid or product at any local retail competitor, we will beat their price by 10% when you buy from us. Just bring us the competitor's current ad. Competitor's remanufactured, discontinued, and used hearing aids are excluded from this offer.

\*Warranty honored at any Livingston location.
